

SEÑOR - POS to Perfection

SCAN POS is ideal wherever barcode scanning is a requirement - supermarkets, convenience stores and general retailing. **SCAN POS** is also ideal for automatic price checking kiosks; and for product information systems in record and video stores where it allows playback of music samples and video promotions when a customer scans the product barcode.

- An infinitely motorized tilting LCD Touch screen for high screen clarity and ergonomic positioning of the touch screen.
- A specialized high performance power supply, with the extra power needed to supply most peripherals, thus reducing the need for extra power blocks.
- Display media and messages on a *DUAL* screen facing the customer. Ideal for advertising and promotional messages.
- And the world-renown Senor engineering excellence.

You can look forward to years of high quality performance, because **SCAN POS** is perfectly built for the point-of-sale . . . built to last . . . and built to perform.

SCAN POS

SCAN POS

Interface

- RS232, Keyboard Wedge, USB

Optical

- Light Source: Dual 650nm visible laser diodes
- Depth of Scan Field: 216mm
- Width of Scan Field: 90mm @ contact, 218mm @ 216mm
- Number of Scan Lines: 32
- Scan Pattern: 8-direction scan field
- Scan Speed: 2400 scans per second

Operating Environment

- Operating Temperature: 0°C - 40°C
- Storage Temperature: -20°C - 60°C
- Humidity: 5% - 95% RH (non-condensing)

Decode Capability

- UPC/EAN/JAN, UPC Versions A&E, EAN-8, EAN-13, JAN-8, JAN-13, ISBN/ISSN, Japanese Bookland, Code 39 (with full ASCII), Codabar (NW7), Code 128/EAN 128, Code 93, Interleaved 2 of 5, Addendum 2 or 5, MSI/Plessey, China Post Code, Code 32 (Italian Pharmacode)
- Optional: IATA Code, Industrial 2 of 5, Standard 2 of 5, Discrete 2 of 5, Matrix 2 of 5, Code 11, RSS-14, RSS Limited, RSS Expanded
